Jakarta, 2nd October 2017 – PT Medco Energi Internasional Tbk (“MedcoEnergi” or “Company”) announced its audited consolidated financial statements for the period ending 30 June 2017 (“1H 2017”).

Roberto Lorato, CEO said that “The Company continues to perform strongly, maintaining both production and cost management this year, we also added and certified 30 million BOE of proved reserves in Block A Aceh for which the gas development is on track to deliver first gas in late Q1 2018, the Central Processing Plant is 85% complete with the first well flow testing right now. The growth and expansion plans of our Power and Mining affiliates will continue with progress accelerating prior to year-end.”

Operational Highlights in 1H 2017

- Oil and Gas production was of 89.8 MBOEPD in 1H 2017, 40.4% higher than 1H 2016, driven by continued high gas sales from the Senoro field and volumes from the South Natuna Sea Block B field.
- Medco Power Indonesia (“MPI”) the Company’s power affiliate now operates over 520MW of gross installed capacity in gas, geothermal and mini-hydro power plants following the commercial operation of the Cibalapulang-1 mini-hydro facility and the expected commercial operation of the Sarulla Unit 2 Geothermal Plant in early October, one month ahead of schedule.
- PT Amman Mineral Nusa Tenggara (“PTAMNT”) the Company’s mining affiliate continues to make good progress on its plans to reduce costs and fund future developments.
